

Friends of Straub
ENVIRONMENTAL LEARNING CENTER

Our Mission

*In partnership with the community,
we create awareness and understanding
of our relationship to the environment.*

OUR WORK

- Environmental Lecture Series
- Household Ecology Workshops
- Environmental Summer Camp
- Family Science Night
- Site for community meetings and dialogue on environmental and sustainability issues
- Native Plant Landscape Restoration Site
- Annual Spring Youth Summit

OUR CENTER

The centerpiece of the Friends' activities is the Straub Center, a structure that provides a lab, classroom, and meeting space for local organizations. Throughout the year, the Straub Center offers a stream of programs for students and adults alike, all designed to heighten concern and respect for Oregon's environment. The Straub Center also functions as a showcase of sustainable building and landscape practices.

PHASE ONE OF THE STRAUB ENVIRONMENTAL LEARNING CENTER OPENED IN SEPTEMBER 2004

ABOUT BOB AND PAT

Gov. Bob and Pat Straub have been the inspiration for the Straub Environmental Learning Center, dedicated to environmental education. The Straubs were renowned for their love of Oregon and their efforts to preserve its natural beauty. The Friends seeks to promote that spirit by fostering public awareness of the beauty and cultural history of the Willamette Valley.

OUR FRIENDS ORGANIZATION

Friends of the Straub Environmental Learning Center is a non-profit organization dedicated to providing the best environmental programs about your home – the mid-Willamette Valley.

Our home is the Straub Environmental Learning Center located on the bank of Mill Creek next to Olinger Pool at NE 14th and A streets. The Center is on the southernmost end of the North Salem High School campus.

OUR WORK COMMITTEES

We welcome both observers and volunteers to attend our work committee meetings to learn more about what we do.

- Education Committee: Plans educational events and activities on-site and in the community
- Resource Development and Outreach Committee - Develops and coordinates communication tools and public relations, oversees grant seeking and fund development for programs and capital projects
- Lecture Series Sub-Committee – Develops and implements the program in conjunction with other committees and the Friends Board
- Facilities Committee - Develops and coordinates future phases of physical expansion of SELC
